Overall Length:

3.4 inches

Overall Height:

1.8 inches

Overall Width:

0.8 inches

Environmental Protection:

General purpose

Operating Temperature Range:

-13.0 to 158.0 degrees fahrenheit

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Rack

Circuit Construction Type:

Solid state

Connection Type And Location:

Connector, plug bottom and terminal block w/screw bottom

Product Name:

Industrial multipower media converter-10/100mbps copper to 100-mbps duplex fiber multimode 1300-nm, 2 km, st

Special Features:

Includes: clips for mounting on din rails; connectors: (1) rj45 with autocross for mdi 11/mdix, (1) pair of st

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
