**Product Name:**

Dc-dc converter module

**Special Features:**

C/o dc input range, isolated output, input surge withstand, dc output, programmable output regulation efficiency, operating temp power density, height above board parallelable with n + m fault tolerance, low noise zcs/zvs architecture po hs compliant.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A31700
