Product Name:

Dc-dc converter module

Special Features:

Dc input range, input surge withstand, isolated output dc outp 3.3-48v, programmable output regulation; efficiency up to 90 percent, operating temp power density up to 90 w per cubic inch, height above board parallable, with n+m fault tolerance, low noise zcs/zvs architecture, rohs compliant (with f or g pin option).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
