**Overall Length:**

7.0 inches

**Overall Height:**

1.6 inches

**Overall Width:**

5.0 inches

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Installation Design:**

Rack

**Attenuation In Decibels:**

14.0

**Overall Gain:**

6.0 decibels and 20.0 decibels

**Impedance Rating Per Channel:**

100000.0 ohms input channel and 70.0 ohms output channel

**Operating Ac Frequency In Hertz:**

50.0 single voltage and 60.0 single voltage

**External Ac Operating Voltage In Volts:**

117.0 single voltage

**Product Name:**

Audio level interface

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
