Overall Length:

7.0 inches

Overall Height:

1.6 inches

Overall Width:

5.0 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Rack

Attenuation In Decibels:

14.0

Overall Gain:

6.0 decibels and 20.0 decibels

Impedance Rating Per Channel:

100000.0 ohms input channel and 70.0 ohms output channel

Operating Ac Frequency In Hertz:

50.0 single voltage and 60.0 single voltage

External Ac Operating Voltage In Volts:

117.0 single voltage

Product Name:

Audio level interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
