Section Quantity:

1

Body Style:

Cylindrical servo mounted

Reliability Indicator:

Not established

Shaft Style:

Round

Shaft Bearing Type:

Ball

Actuator Type:

Single shaft

Fragility Factor:

Moderately rugged

Mounting Method:

Clamp ring

Features Provided:

Humidity proof

Standard Taper Curve Per Section:

A single section

Special Features:

Spur gear mounted on shaft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A002a0
