Temperature Points For Resistance Readings At Zero Power:

50.0 degrees celsius 2nd resistance-temperature point

Zero Power Resistance At Specificationified Temp:

24.7 kilohms 2nd resistance-temperature point

Resistance Tolerance At A Specificationified Temperature In Percent:

-15.0/+15.0 all resistance-temperature points

Zero Power Resistance:

70.000 kilohms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
