Board Material:

Fiber, phenol

Width:

1.671 inches

Thickness:

0.437 inches

Length:

3.593 inches

Mounting Method:

Through hole

Component Quantity:

13

Mounting Configuration:

Holes spaced 1.188 in. C to c

Assembly Construction Method:

Mounted on terminal board

Electrical Connection Method:

Parallel

Component Relationship:

Matched for resultant resistance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
