Board Material:

Fiberglass, epoxy

Width:

1.125 inches

Overall Length:

5.310 inches

Overall Width:

1.125 inches

Thickness:

0.125 inches

Length:

5.310 inches

Mounting Method:

Terminal

Component Quantity:

3

Component Name:

Fixed composition resistor

Assembly Construction Method:

Mounted on terminal board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
