Terminal Quantity:

3

Terminal Type:

Solder lug

Overall Length:

1.125 inches

Overall Height:

1.750 inches

Overall Diameter:

0.188 inches

Usage Design:

Used as surge arrestor

Mounting Configuration:

Mtd by bracket on back of resistor w/3 no. 25 drilled holes on 7/32 in. Mtg centers

Element Material:

Copper, oxidized

Resistance Rating At Specificationified Voltage:

114 ohms at 23.7 dc

Resistance Temperature Rating:

Between 60.0 degrees fahrenheit and 90.0 degrees fahrenheit

Criticality Code Justification:

Feat

Special Features:

Poseidon material hull, mech, elec, ord and electronics, aircraft, stratolifter c-135 and other weapon systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-d
