Terminal Quantity:

3

Terminal Type:

Wire lead

Component Quantity:

2

Component Controlling Agency:

Minneapolis-honeywell regulator company

Component Name:

Resistor and pin assembly

Component Identifying Number:

461905 drawing no.

Assembly Construction Method:

Terminals wired together

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
