Resistance Tolerance In Percent:

-1.0/+1.0

Resistor Power Dissipation Rating In Watts:

0.25

Component Quantity:

2

Component Name:

Fixed film resistor

Component Identifying Number:

35-268402-5111 part no.

Assembly Construction Method:

Leads soldered together

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
