End Application:

An/apn-141v altimeter set

Component Quantity:

1 and 8

Component Controlling Agency:

Epsco inc

Component Name:

Resistor variable, resistor fixed wirewound

Component Identifying Number:

101884 part no. And 101882 part no.

Assembly Construction Method:

Mounted on terminal board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
