Terminal Quantity:

4

Terminal Type:

Pin

Width:

0.750 inches

Length:

0.950 inches

Mounting Method:

Terminal

Component Quantity:

4

Component Controlling Agency:

Sylvania electronic systems

Component Name:

Connector plug assembly.

Assembly Construction Method:

Mounted between terminal boards

Component Relationship:

Matched for resultant resistance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
