Terminal Type:

Wire lead

Board Material:

Any acceptable

Width:

Between 4.770 inches and 4.830 inches

Thickness:

0.063 inches

Length:

Between 12.790 inches and 12.850 inches

Component Quantity:

4

Assembly Construction Method:

Mounted on printed circuit board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
