Inclosure Method:

Uninclosed

Terminal Type:

Tab, solder lug

Reactance Characteristic:

Inductive

Reliability Indicator:

Not established

Features Provided:

Mounting hardware

Special Features:

Screw/nob assembly connected on brackets parallel to resistor with a slide bar actuator for adjustable resistance

Style Designator:

Radial terminal each end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A001a0
