**Temperature Points For Resistance Readings At Zero Power:**

150.0 degrees celsius all resistance-temperature points

**Zero Power Resistance At Specificationified Temp:**

0.3 ohms all resistance-temperature points

**Resistance Tolerance At A Specificationified Temperature In Percent:**

-5.0/+5.0 all resistance-temperature points

**Zero Power Resistance:**

100.000 ohms

**Zero Power Resistance Tolerance In Percent At Reference Temp:**

-10.0/+10.0

**Special Features:**

2 terminals

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A086a0
