Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

1.190 inches

Overall Diameter:

0.250 inches

Usage Design:

Limits current grid circuit of 901v5b

Mounting Configuration:

Terminal mounted

Element Material:

Silicon carbide

Resistance Rating At Specificationified Voltage:

50000 ohms at 5 vdc, 400000 ohms at 400 vdc

Resistance Temperature Rating:

131.0 degrees fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-d
