Section Quantity:

1

Product Name:

Resistor, variable

Special Features:

Length of first connector: 15" (+1"), length of 2nd connector: 12" (+1")

Supplementary Features:

Crimp terminal assembly and ferrule to conductor and insulation to conform to specification mil-t-13513

Specification Data:

96906-dod-std-100 government standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A002a0
