Terminal Quantity:

2

Terminal Type:

Wire lead

Overall Length:

0.900 inches

Overall Diameter:

0.490 inches

Element Material:

Silicon carbide

Resistance Rating At Specificationified Voltage:

5000 ohms at 175 vdc, 325000 ohms at 325 vdc, 50 megohm at 50 vdc

Special Features:

Leads withstand a 5 pound pull in a direction coaxial with the lead without breaking the solder joint or pulling leads loose

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-d
