NSN 5905-00-716-0119

Nonprecision Wire Wound Variable Resistor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5905-00-716-0119

Section Quantity:
1
Body Style:
Cylindrical servo mounted
Reliability Indicator:
Not established
Shaft Style:
Round
Actuator Type:
Single shaft
Fragility Factor:
Moderately rugged
Mounting Facility Quantity:
1
Mounting Method:
Threaded hole
Features Provided:
Humidity proof
Standard Taper Curve Per Section:
A single section
Special Features:
Gear 2; resistor 1; 8/0 taper pin 1
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A002a0
