Section Quantity:

1

Body Style:

Cylindrical servo mounted

Reliability Indicator:

Not established

Shaft Style:

Round

Actuator Type:

Single shaft

Fragility Factor:

Moderately rugged

Mounting Facility Quantity:

1

Mounting Method:

Threaded hole

Features Provided:

Humidity proof

Standard Taper Curve Per Section:

A single section

Special Features:

Gear 2; resistor 1; 8/0 taper pin 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A002a0
