Nonprecision Wire Wound Variable Resistor - Page 1 of 2

View Online at https://aerobasegroup.com/nsn/5905-00-810-5274

| Section Quantity:                                                           |
|-----------------------------------------------------------------------------|
| 1                                                                           |
| Body Style:                                                                 |
| Rectangular bushing mounted                                                 |
| Reliability Indicator:                                                      |
| Not established                                                             |
| Mounting Bushing Length:                                                    |
| 0.250 inches                                                                |
| Body Length:                                                                |
| Between 1.235 inches and 1.265 inches                                       |
| Body Width:                                                                 |
| Between 0.235 inches and 0.265 inches                                       |
| Body Height:                                                                |
| Between 0.297 inches and 0.327 inches                                       |
| Actuator Type:                                                              |
| Flush drive with slot-hole                                                  |
| Effective Electrical Rotation In Deg Angular Rotation:                      |
| 9000.0                                                                      |
| Maximum Starting Torque:                                                    |
| 7.50 inch-ounces                                                            |
| Maximum Running Torque:                                                     |
| 7.50 inch-ounces                                                            |
| Screw Thread Diameter:                                                      |
| 0.190 inches                                                                |
| Screw Thread Series Designator:                                             |
| Unf                                                                         |
| Screw Thready Qty Per Inch (tpi):                                           |
| 32.0                                                                        |
| Terminal Location:                                                          |
| Lower adjacent side two rows                                                |
| Mounting Method:                                                            |
| Standard bushing                                                            |
| Features Provided:                                                          |
| Humidity proof                                                              |
| Electrical Resistance Per Section:                                          |
| 100.0 ohms single section                                                   |
| Rotary Actuator Travel In Angular Deg:                                      |
| 9000.0                                                                      |
| Ambient Tempurature In Deg Celsius Per Section At Zero Percent Rated Power: |
| 105.0 single section                                                        |
| Tempurature Coefficient Of Resistance Per Section In Ppm Per Deg Celsius:   |
|                                                                             |

-100.0/+100.0 single section

# NSN 5905-00-810-5274

Nonprecision Wire Wound Variable Resistor - Page 2 of 2

Power Dissipation Rating Per Section In Watts:

0.5 free air single section

#### **Resistance Tolerance Per Section In Percent:**

-10.0/+10.0 single section

# Actuator Travel Control Feature:

Clutch

### Ambient Tempurature In Deg Celsius Per Section At Full Rated Power:

70.0 single section

Standard Taper Curve Per Section:

A single section

#### Terminal Type And Quantity:

3 tab, solder lug

Shelf Life:

N/a

#### Unit Of Measure:

--

## Demilitarization:

No

#### Fiig:

A002a0
