Board Material:

Plastic, laminated paper base

Width:

4.468 inches

Overall Length:

6.937 inches

Overall Width:

4.468 inches

Thickness:

0.063 inches

Length:

6.937 inches

Mounting Method:

Terminal

Component Quantity:

8

Component Name:

Resistor

Assembly Construction Method:

Mounted on terminal board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T172-f
