**Reliability Indicator:**

Not established

**Temperature Points For Resistance Readings At Zero Power:**

96.1 degrees celsius 1st resistance-temperature point

**Zero Power Resistance At Specificationified Temp:**

4.9 kilohms 1st resistance-temperature point

**Resistance Tolerance At A Specificationified Temperature In Percent:**

-15.0/+15.0 all resistance-temperature points

**Inclosure Type:**

Encapsulated

**Zero Power Resistance:**

50.000 kilohms

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A086a0
