Terminal Quantity:

50

Terminal Type:

Stud

Mounting Method:

Holes

Component Quantity:

41

Component Controlling Agency:

Naval ordnance systems command

Component Name:

Resistor

Component Identifying Number:

2300636 drawing no.

Assembly Construction Method:

Mounted on printed circuit board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
