Section Quantity:

1

Body Style:

Cylindrical bushing mounted

Reliability Indicator:

Not established

Body Diameter:

0.500 inches

Body Length:

1.000 inches

Electrical Resistance Per Section:

5.0 megohms single section

Power Dissipation Rating Per Section In Watts:

0.5 free air single section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A002a0
