Terminal Quantity:

20

Terminal Type:

Wire lead

Board Material:

Glass epoxy, laminated

Width:

1.500 inches

Thickness:

0.090 inches

Length:

4.500 inches

Mounting Method:

Terminal

Component Quantity:

10

Mounting Configuration:

Terminals spaced 0.375 in. C to c

Assembly Construction Method:

Mounted on terminal board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
