Terminal Quantity:

7

Terminal Type:

Pin

Mounting Method:

Printed circuit

Component Quantity:

20

Component Controlling Agency:

Electronics materiel readiness activity

Component Name:

Fxd resistor, terminal pin, printedwiring board

Component Identifying Number:

0149-1-3067 part no.

Assembly Construction Method:

Mounted on printed circuit board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
