Terminal Quantity:

2

Terminal Type:

Solder lug

Overall Length:

7.875 inches

Mounting Method:

Bracket

Component Quantity:

4

Mounting Configuration:

One mounting hole in bracket base

Component Controlling Agency:

Midwest components inc

Component Name:

Resistor voltage sensitive

Component Identifying Number:

9rv6d75 drawing no.

Assembly Construction Method:

Stacked w/through bolt

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
