Width:

1.375 inches

Thickness:

0.625 inches

Length:

4.000 inches

Component Quantity:

6

Component Name:

Fixed composition resistor

Assembly Construction Method:

Mounted on terminal board

Component Relationship:

Matched for resultant resistance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
