Terminal Quantity:

40

Terminal Type:

Solder stud

Board Material:

Laminated glass

Width:

Between 2.970 inches and 3.030 inches

Length:

Between 7.970 inches and 8.030 inches

Mounting Method:

Holes

Component Quantity:

29

Mounting Configuration:

6 holes 0.177 in. Dia

Component Name:

Resistor

Assembly Construction Method:

Mounted on terminal board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
