Mounting Method:

Holes

Component Quantity:

1 and 1 and 1 and 1 and 2 and 1

Component Controlling Agency:

Military specification

Component Name:

Resistor, fixed, wirewound

Component Identifying Number:

Rer70f51r1m part no. And rer60f13r3m part no. And rer60f40r2m part no. And rer60f25r5m part no. And rer60f5r62m part no. And rer60f1500m part no.

Assembly Construction Method:

Mounted on plate

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
