Terminal Quantity:

2

Terminal Type:

Stud

Width:

1.625 inches

Thickness:

0.625 inches

Length:

3.375 inches

Mounting Method:

Threaded holes

End Application:

6625-01-099-0843

Component Quantity:

5

Mounting Configuration:

One 0.125 in. Threaded hole

Component Name:

Resistor, variable, non-wirewound 4; printed wiring board 1

Assembly Construction Method:

Mounted on printed circuit board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
