Board Material:

Fiberglass

Width:

1.891 inches

Thickness:

0.096 inches

Length:

3.500 inches

Mounting Method:

Holes

End Application:

Runway end indicator lights (reil)

Component Quantity:

5

Assembly Construction Method:

Mounted between posts

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
