**Terminal Quantity:**

62

**Terminal Type:**

Wire lead

**Mounting Method:**

Solder and printed circuit terminal

**Component Quantity:**

31

**Component Controlling Agency:**

Lockheed-california co.

**Component Name:**

Fixed film resistor

**Component Identifying Number:**

Rnc65h3160fm part no. And rnc65h2001fm part no. And c-1508 part no. And c-417-m part no. And rlr202002fm part no. And rlr07c1002fm part no. And rlr07c6190fm part no. And rlr07c1001fm part no.

**Assembly Construction Method:**

Leads soldered to terminals

**Component Relationship:**

Matched for resultant resistance

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T172-f
