## NSN 5905-01-227-5219

Inductive Wire Wound Fixed Resistor - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5905-01-227-5219

| Electrical Resistance:             |
|------------------------------------|
| 1.500 kilohms                      |
| Fixed Tap Quantity:                |
| 1                                  |
| Inclosure Method:                  |
| Encapsulated                       |
| Terminal Type:                     |
| Tab, solder lug                    |
| Reliability Indicator:             |
| Not established                    |
| Body Length:                       |
| 5.562 inches                       |
| Power Dissipation Rating In Watts: |
| 100.000 free air                   |
| Mounting Hole Size:                |
| 0.234 inches                       |
| Section Resistance:                |
| 750.000 ohms single section        |
| Fixed Tap Terminal Type:           |
| Tab, solder lug                    |
| Style Designator:                  |
| Radial terminal each end           |
| Shelf Life:                        |
| N/a                                |
| Unit Of Measure:                   |
|                                    |
| Demilitarization:                  |
| No                                 |
| Fiig:                              |
| A001a0                             |
|                                    |
