Terminal Quantity:

2

Terminal Type:

Wire lead

Mounting Method:

Holes

Mounting Configuration:

Two unthreaded holes spaced 5.500 inches apart

Component Controlling Agency:

Sikorsky aircraft

Component Name:

Resistor assembly

Component Identifying Number:

70550-01118 drawing no.

Assembly Construction Method:

Mounted on terminal board

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
