Overall Length:

9.380 inches

Overall Height:

4.000 inches

Overall Width:

4.500 inches

Component Quantity:

4

Component Controlling Agency:

Naval sea systems command

Component Name:

Fixed resistor

Assembly Construction Method:

Mounted in holder

Component Relationship:

Matched for resultant resistance

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T172-f
