Overall Length:
9.380 inches
Overall Height:
4.000 inches
Overall Width:
4.500 inches
Component Quantity:
4
Component Controlling Agency:
Naval sea systems command
Component Name:
Fixed resistor
Assembly Construction Method:
Mounted in holder
Component Relationship:
Matched for resultant resistance
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T172-f
