Body Style:

Rectangular w/bushing/flange mounted

Reliability Indicator:

Not established

Shaft Style:

Round

Actuator Type:

Single shaft

End Application:

6530-01-244-0708

Terminal Location:

Upper adjacent side two rows

Mounting Method:

Standard bushing

Special Features:

120 v; 600 watts

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A002a0
