**Terminal Quantity:**

4 and 8

**Terminal Type:**

Wire lead and wire lead

**Mounting Method:**

Solder

**Component Quantity:**

2 and 4

**Component Controlling Agency:**

Westinghouse electric corp

**Component Name:**

Fixed wire wound resistor; resistor thermal

**Component Identifying Number:**

Rwr84s2801fr part no. And 142c924h01 part no.

**Assembly Construction Method:**

Mounted on printed circuit board

**Component Relationship:**

Not matched

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T172-f
