Terminal Quantity:
2 and 2 and 2 and 2 and 8
Terminal Type:
Wire hook and wire hook and wire hook and wire hook and wire hook
Component Quantity:
1 and 1 and 1 and 1 and 4
Component Controlling Agency:
General electric
Component Identifying Number:
1042-77+35 part no. And +14 part no. And +32 part no. And +16 part no. And +19 part no. And +17 part no.
Assembly Construction Method:
Mounted on printed circuit board
Component Relationship:
Not matched
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T172-f
