Terminal Quantity:

2 and 2 and 2 and 2 and 2 and 8

Terminal Type:

Wire hook and wire hook and wire hook and wire hook and wire hook and wire hook

Component Quantity:

1 and 1 and 1 and 1 and 1 and 4

Component Controlling Agency:

General electric

Component Identifying Number:

1042-77+35 part no. And +14 part no. And +32 part no. And +16 part no. And +19 part no. And +17 part no.

Assembly Construction Method:

Mounted on printed circuit board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
