Terminal Quantity:

6 and 6

Mounting Method:

Holes

Component Quantity:

3 and 3

Component Controlling Agency:

Axel electronics, inc

Component Name:

Voltage sensitive resistor

Component Identifying Number:

V1000la160b part no. And v510la80b part no.

Assembly Construction Method:

Mounted on terminal board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T172-f
