Board Material:

Any acceptable

Width:

3.000 inches

Thickness:

0.062 inches

Length:

3.400 inches

Mounting Method:

Connector

End Application:

5840-01-259-2908 set 15

Component Quantity:

26

Component Controlling Agency:

General electric co.

Component Name:

Fixed composition resistor

Component Identifying Number:

77c724056g1 part no.

Assembly Construction Method:

Mounted on printed circuit board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
