Board Material:
Any acceptable
Width:
3.000 inches
Thickness:
0.062 inches
Length:
3.400 inches
Mounting Method:
Connector
End Application:
5840-01-259-2908 set 15
Component Quantity:
26
Component Controlling Agency:
General electric co.
Component Name:
Fixed composition resistor
Component Identifying Number:
77c724056g1 part no.
Assembly Construction Method:
Mounted on printed circuit board
Component Relationship:
Not matched
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T172-f
