Terminal Quantity:

32

Terminal Type:

Solder stud

Board Material:

Plastic

Width:

1.400 inches

Thickness:

0.200 inches

Length:

5.500 inches

Mounting Method:

Holes

End Application:

Machalt ecp n

Component Quantity:

22

Component Name:

Fixed composition resistors

Assembly Construction Method:

Mounted on terminal board

Component Relationship:

Not matched

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T172-f
