Reliability Indicator:

Not established

Terminal Length:

4.000 inches

Probe Length:

Between 10.740 inches and 10.860 inches

Probe Diameter:

0.215 inches

Inclosure Type:

Encased

Zero Power Resistance:

100.000 ohms

Zero Power Resistance Tolerance In Percent At Reference Temp:

-0.5/+0.5

Special Features:

Stainless steel flexible armor 48 in. Long

Precious Material And Location:

Resistance element platinum

Precious Material:

Platinum

Style Designator:

Probe

Terminal Type And Quantity:

3 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
