Temperature Points For Resistance Readings At Zero Power:

100.0 degrees celsius 1st resistance-temperature point

Width Across Flats:

0.250 inches

Mounting Thread Quantity:

32 per inch

Special Features:

Stainless steel housing; polytetrafluoroethylene insulated leads; 8-32 no-2a thd body

Style Designator:

Probe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A086a0
